WORK EXPERIENCE

BOSTON INTERACTIVE

Boston, MA | Sept. 2016 - Mar. 2017

Front-end Development Co-op

- Developed responsive websites by using HTML5, CSS3/SASS, JS/jQuery and other frameworks techniques
- Built website mock-ups for various CMS systems including Drupal and Kentico
- Created HTML email templates and static landing pages for marketing campaigns
- Contributed to productivity through effective websites QA, testing, and debugging
- Participated in projects in all stages and actively communicated with designer and project management of the product life cycle.
- Collaborated with team members and improved project efficiency by using Github and Jira

AGENCY COMPILE

Boston, MA | May - Sept. 2016

Junior Developer

- Redesigned and optimized website UI by using Bootstrap framework
- Enhanced user experience by adding vivid interactions and animations
- Created new features with better visual flow and responsive design
- Consolidated website's style efficiently by applying LESS CSS
- Used GIT to improve teamwork efficiency and source control
- Built new project components by using ReactJS

PROJECTS

CHINESE RESTAURANTS@BOSTON

April - June 2017

- Designed and developed a responsive website in AngularJS 2 to create a dynamic food search and an interactive restaurants map.
- Improved development efficiency and server performance by applying AngularJS key features.

ANGELHACK — LADY'S PROBLEM HACKATHON

Boston | Nov. 2016

- Created a safety tracking app called Running Angel in two days
- Utilized HERE APIs to provide accurate map information and routes suggestion
- Maintained good relationship with team members
