WORK EXPERIENCE

- **Boston Interactive** Boston, MA
Front-end Developer Co-op Sept. 2016 -Present
Front-end development for various devices by using HTML5, CSS3/SASS, jQuery and other frameworks techniques
Developed website mock-ups for various CMS systems including Drupal and Kentico
Created HTML email templates and static landing pages for marketing campaigns
Assisted with websites QA, testing, and debugging
Worked closely with designer and project management on different clients' projects
- **Agency Compile** Boston, MA
Junior Developer May - Sept. 2016
Improved and redesigned website UI by using Bootstrap framework
Enhanced user experience by adding vivid interactions and animations
Created new features with better visual flow and responsive design
Consolidated website's style efficiently by applying LESS CSS
Gained experience using GIT and learning best practices for source control
Exposure to ReactJS of new project API

RECENT PROJECTS

- **Lady's Problem Hackathon** Nov. 2016
Running Angel -- Created a responsive webpage in two days, including team building, webpage design, and front-end development
- **PS Learning Website** April.-Jun. 2016
Designed and developed a user-friendly and responsive website for old people to learn some basic photoshop skills. Gained hands on using interactive design concepts, code, UI design elements, and visual characteristics to invite interaction and communicate. Hacked the Bootstrap and jQuery UI component to improve user experience.
- **Travel Website** Jan. 2016
Programming of a customized trip planning website. Followed important features of responsive web design. Developed the website by the HTML/CSS3/JS.
