"*I'm a passionate female front-end engineer who believes in our life deserve a better combination of modern technologies and human-centered creations.*"

WORK EXPERIENCES

BOSTON INTERACTIVE | Front-End Engineer   Boston, MA | Aug. 2017 - Current

- Built customized UI templates and reusable, scalable components by using HTML5, CSS3/SASS, JS/jQuery, Zurb Foundation, Gulp, Npm and Git for Content Management System (CMS) — Drupal and Kentico projects, like L.E.K. Consulting, Charles River, Valley National Bank and Cambridge Trust, etc.
- Developed the new site on Drupal 8 for FAGE to provide better user experience and web performance that increased users since launch by 29% and decreased page load time by 19%.
- Rebuilding internal project by using React with Material UI to optimize UI architecture and web performance.
- Contributing to internal front-end components library for flexible web development and meet ADA Compliance.
- Creating and Maintaining the front-end standards and best practices for external developers to reduce projects setup time and improve work efficiency.
- Collaborating with a cross functional team including back-end, design, UX, and PM within Agile environment.

BOSTON INTERACTIVE | Web Development Co-op   Boston, MA | Sept. 2016 - Mar. 2017

- Created HTML email templates and landing pages for marketing campaigns.
- Built meaningful interactive animation and UI widgets to improve user experience and visual flow.
- Contributed to productivity through effective websites enhancement, cross browsers' testing, and bug fixes.

AGENCY COMPILE | Junior Developer   Boston, MA | May - Sept. 2016

- Rebuilt company website to be responsive and optimized user interface by using Bootstrap framework.
- Redesigned and rewrote subscribe and contact us pages with better interactions and vivid animations.
- Experienced in using React to build new employee information system.
